

FOR IMMEDIATE RELEASE

Biogas & Electric to install NOxRx® at Bakersfield WWTP #3.

San Diego, CA – 6/1/2014 – Biogas & Electric breaks ground for a NOxRx® installation at Bakersfield WWTP #3.

Biogas & Electric is developing a novel low cost NOx reduction solution for biogas engines.

Seth Burns, CEO of Biogas & Electric, stated “I am very happy to break ground at Bakersfield Wastewater Treatment Plant #3. We look forward to reducing NOx emissions (a precursor to ground level ozone) for the City of Bakersfield.”

Bakersfield Wastewater Treatment Plant #3 has two GE Jenbacher biogas fired engines installed and operating at the facility.
