Biogas & Electric Given California Energy Commission Award

San Diego, CA – 1/22/2015 – Biogas & Electric has been given an award from the California Energy Commission (CEC) for \$2,249,322 titled: "Installation of a Lean Burn Biogas Engine with Emissions Controls to Comply with Rule 1110.2 at a WWTP in SCAQMD"

Biogas & Electric is developing a novel low cost NOx reduction solution for biogas engines.

Seth Burns, CEO of Biogas & Electric, stated "We look forward to demonstrating NOx, SOx and CO emissions reduction with our low cost and highly effective emission solution within South Coast Air Quality Management District."
